Message

You have been an environmental champion for North Carolina--and you recently stood up to stop offshore drilling, which I truly appreciate--so I am very deeply disappointed that you are pressuring DEQ to approve the Atlantic Coast Pipeline permits." The ACP will not create jobs or lower energy bills, and it will destroy the properties and livelihoods of North Carolinians who live along its route. All to give a 15% return (\$200 million of billpayers' money in Virginia alone) to Atlantic and deliver energy that's not even needed!

Fracked gas pipelines across the nation cause water and air pollution, explode, and contribute directly to global climate change by leaking methane, a powerful greenhouse gas. I am truly horrified that you have approved the Atlantic Coast! PLEASE reconsider!!
